

CROSSA

Inspire collaboration in your community

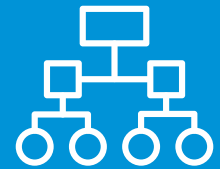

What is CrossA?

A versatile platform for the management and administration of sport federations, associations and clubs.

Features

Centralise and classify
members

Organise classes and
sports competitions

Manage membership
subscriptions and
payments

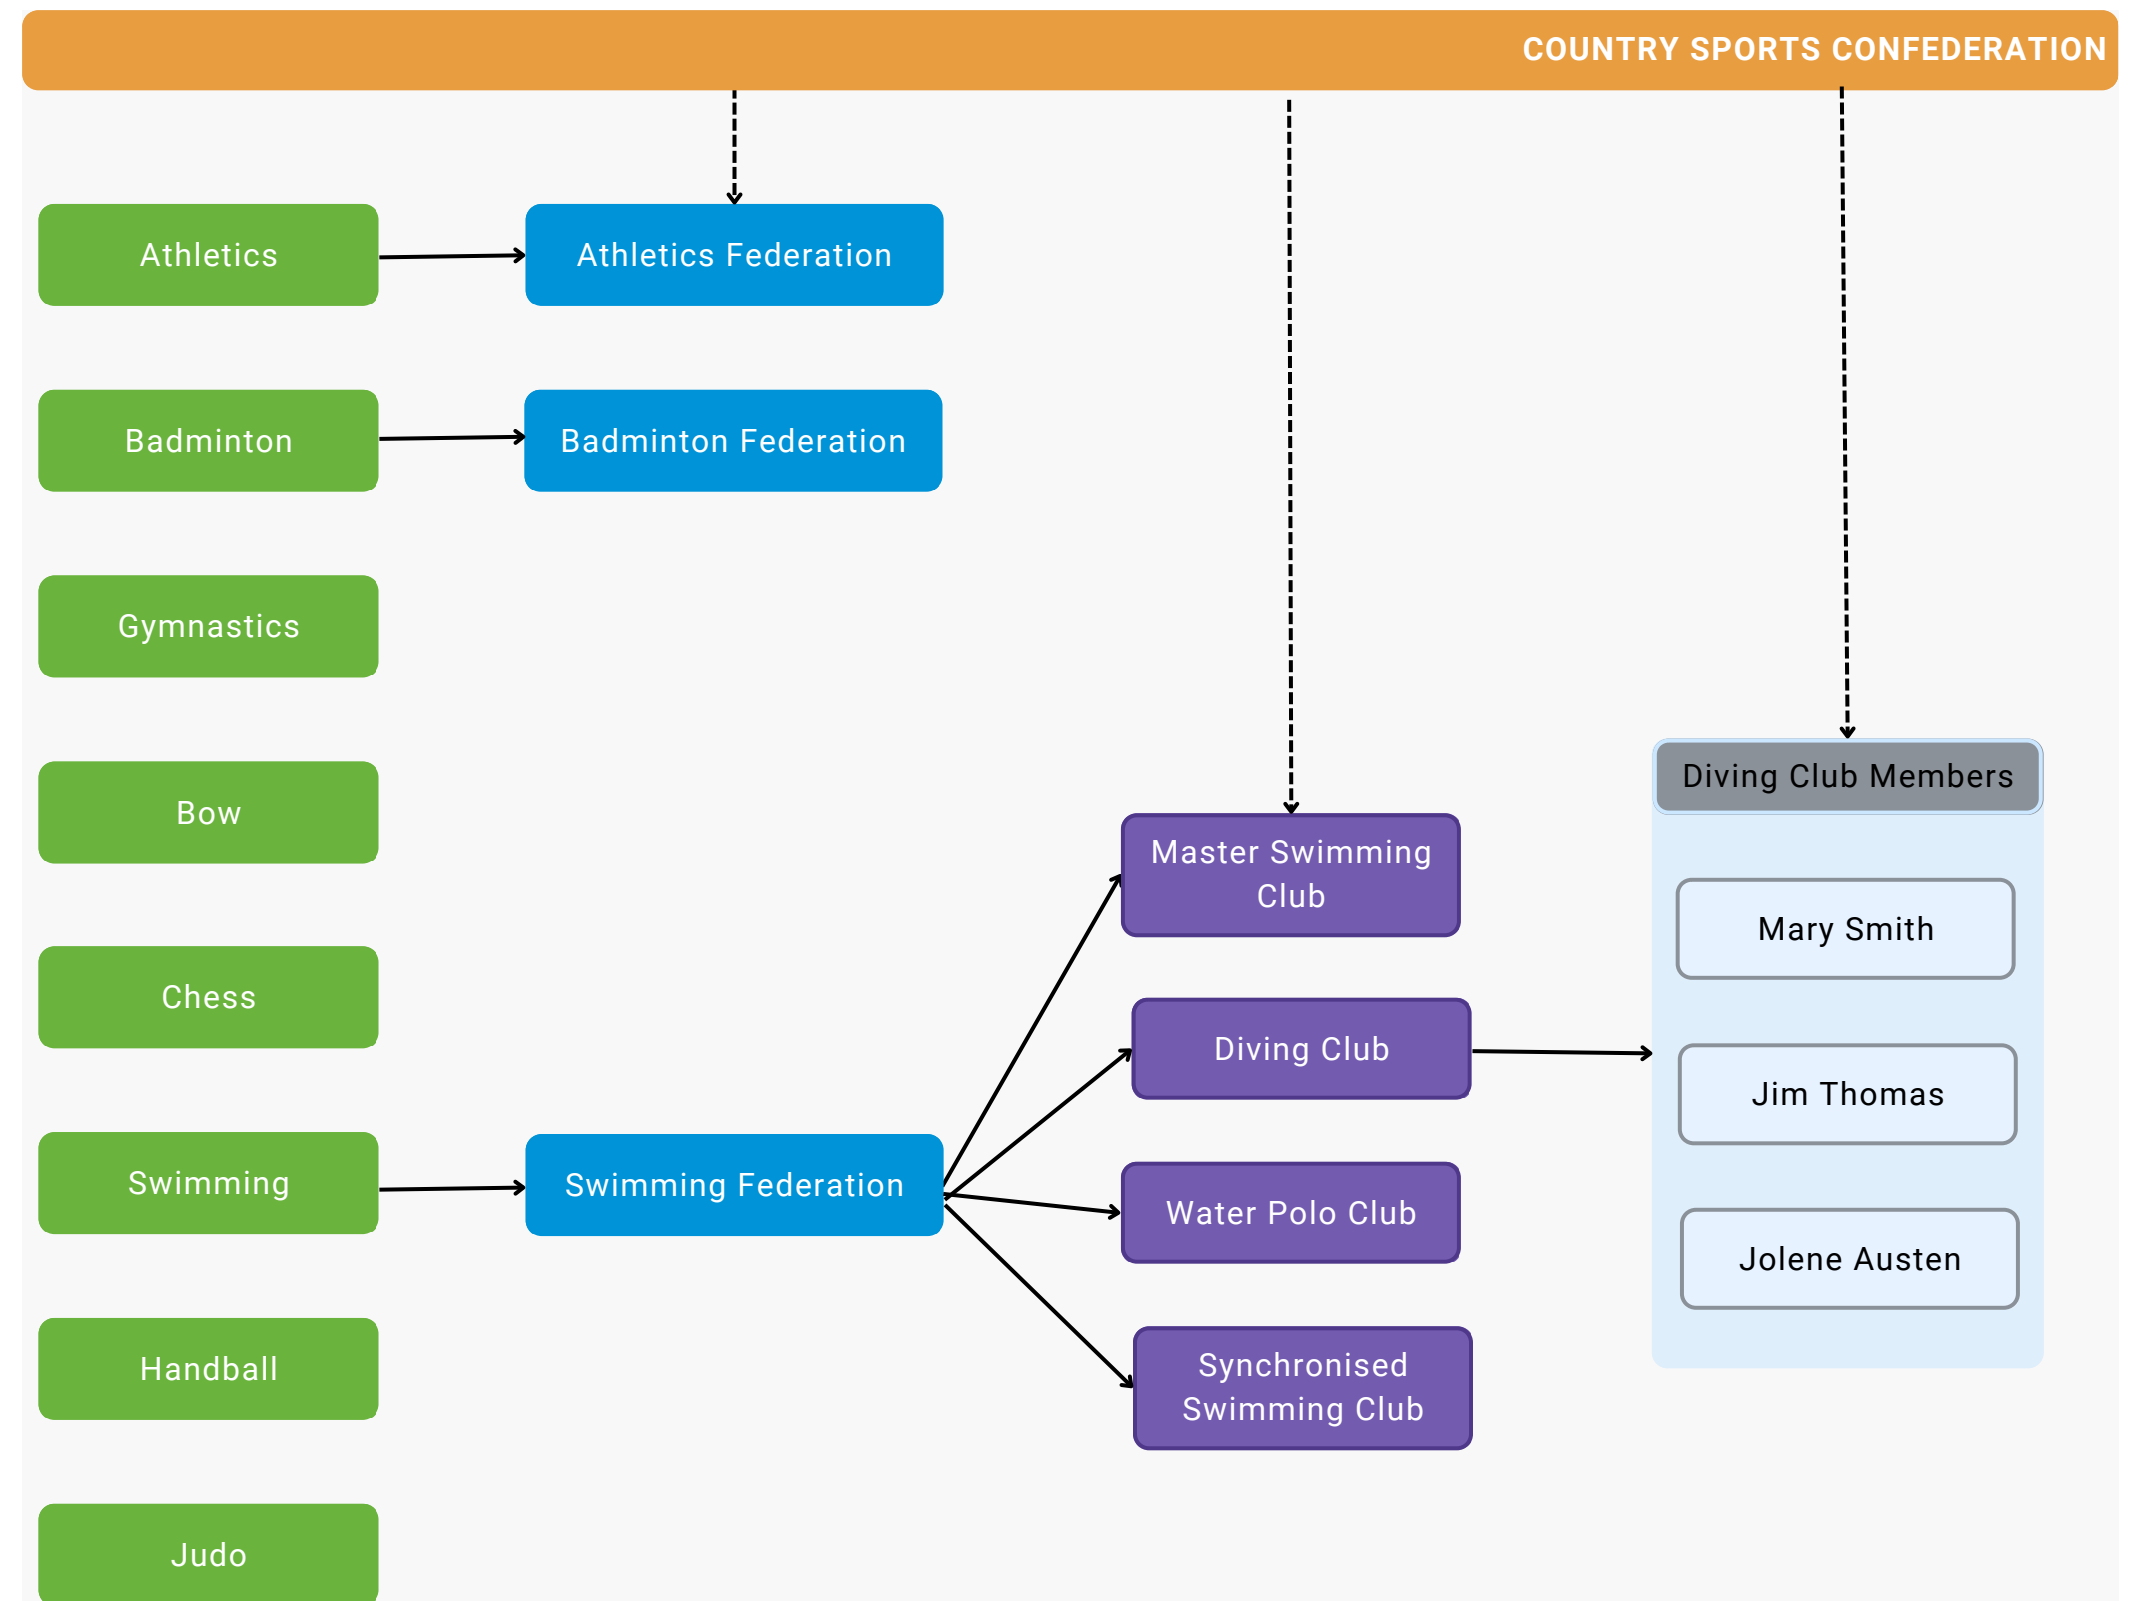

Send relevant
notifications to your
members

Generate reports

Hierarchical Structure

The platform allows the management of hierarchical organizations and their activities.

Membership

Organizations (clubs, federations, associations) can manage and group their members.

Members can register directly for activities and classes, and are notified in a mobile app or mail about updates or schedule changes.

Communication Module

The organization's staff can send messages to their members about class schedule, events or competitions.

Push notifications through a mobile app

Email notifications

Message flows are easy to follow

Form Builder

Forms can be created to take registrations for membership subscription, events and classes etc. Any user can create forms using drag and drop modules, including a payment component. Forms can be generated as a link and shared on any other external platform.
